

STUDENTS SURVEY DATA -2019

The Students Survey was conducted among grade 8 students of 114 schools (N=4889). The purpose of the student survey was to collect information on students' general background, their knowledge and satisfaction, opportunities to attend school, expectations of success, personal or family attitudes about the value of education and school, their perception of instructional quality and the classroom environment, such as sense of safety, friendliness of other students, and support from teachers. The survey was administered face-to-face by a well-trained interviewer using Computer Assisted Personal Interview (CAPI) format at their home.

Out of 4889 eligible students 4588 students were interviewed resulting in a 93.9% completion rate. 301 interviews were incomplete which includes 3 impaired, 85 refusals, 59 within Chitwan Valley, 11 within Nepal but outside of Chitwan, 5 outside of Nepal and 138 addresses unknown.

The project was led by Principal Investigator Prof. Dr. Dirgha Jibi Ghimire, Population Studies Center, University of Michigan, Executive Director, ISER-N; Co-investigator Prof. Dr. William G. Axinn, Population Studies Center, Survey Research Center, University of Michigan; and Co-investigator Prof. Dr. Brian Rowan, Institute for Social Research, Stanford University.
