

Basic Level Exam Test Scores: 2019

The Basic Level Examination, popularly abbreviated as BLE, is an examination for eighth grade children in Nepal taken at the metro/municipality level. In Bharatpur Metro, the examination is facilitated by the Metro Exam board under the Education Section of the Bharatpur Metropolitan City Office. The BLE is an annual examination administered to all Grade 8 students in the community (public) and institutional (private) schools within the Metro. The questions for the examination are designed by a group of subject expert which includes

1. Teachers from those schools which secured best results in previous BLE examinations
2. Newer teachers who have passed the Teacher Service Commission's examination recently, and
3. Experts who have participated in question preparation workshops as a subject expert.

The education section of the Bharatpur Metro organized subject specific question preparation workshops. In the workshops, three subject teachers design three different sets of draft questions based upon the curriculum of that particular subject. Each question set is later reviewed by the two other subject experts. All revisions are discussed and resolved by all three subject experts. Finally, one question set is selected randomly from the 3 different sets by the BLE exam board. Both English and Nepali versions of the questions are maintained in the final set of questions.

After question finalization, the BLE examination is administered in all the Community and Institutional schools which offer Grade 8 education. The completed examinations are collected and kept safely. A total of seven examination grading centers were established within the Metro and subject teachers graded the exams in those centers. Subject teachers were not allowed to grade exams from the school they taught at.
